Solomon/Rachel - I hope this brief email finds you well. As you know, we are working with American Campus Communities on a student housing project on our Health Sciences Campus located in CD 14. This project is going before PLUM on 1/15 due to an appeal despite unanimous CPC approval back on October 11, 2018. Over the last few weeks, we have been meeting with CD 14 staff to craft a number of voluntary community benefits focused on local hiring and training among other valuable community needs. Attached please find the letter we submitted earlier today which provide details on the project and the voluntary community benefits we developed with CD 14. Also attached is the proposed local hiring and procurement opportunities language the developer will implement on this project. All conditions listed were developed in consultation and in agreement with CD 14 staff.

Let me know if you have any questions. We will have a few supporters in attendance at the hearing on Tuesday.
